## PROJECTS

**W-Mate,** Community based waste management platform. 🔗                    Nov 2023 – Jan 2024
Developed a community-based waste management platform with an integrated chatbot to answer user queries and connect them with waste management companies. Promoted sustainable disposal and efficient recycling, positively impacting the environment. - Botpress, HTML5, Tailwind CSS, React.js, Express.js, Node.js and Firebase.

**Chat App,** Real-Time Messaging Application. 🔗                    Jun 2024 – Aug 2024
Developed a real-time chat application that allows users to register, log in, and securely interact using JWT authentication. Implemented WebSocket-based real-time communication, and utilized MongoDB for data storage to persist user information and message history. - MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Daisy UI.

**Instagram User Analytics,** Data analysis project.                    Dec 2022 – Jan 2023
Developed and executed a data analytics initiative to boost user retention and engagement by rewarding loyal users, automating reminders, determining contest winners, and launching targeted ad campaigns based on comprehensive data analysis. - MySQL.

**Web Chat,** Chatbot built on Botpress. 🔗                    Nov 2023 – Dec 2023
Designed and implemented a knowledge-based chatbot using the Botpress framework. This chatbot leverages a curated knowledge base to answer user questions directly, while also integrating Natural Language Processing (NLP) for comprehensive responses to complex inquiries. - Botpress.

## WORK EXPERIENCE

**Web development Intern,** Inventeron Technologies. 🔗                    Aug 2023 – Sep 2023
Completed a comprehensive web development internship at Inventeron Technologies, where I learned core web development technologies and gained hands-on experience by working on various projects, enhancing my skills in both front-end and back-end development.

**Data Analytics Trainee,** Trainity. 🔗                    Nov 2022 – Jan 2023
Completed intensive 8-week data analytics training at Trainity, gaining hands-on experience through live projects, case studies, and portfolio work. Leveraged acquired insights and analytical techniques to drive impactful decision-making, improving operations and business performance.

**AI and Machine Learning Intern,** Pantech Solutions. 🔗                    Sep 2022 – Nov 2022
Executed AI and Machine Learning projects as an intern, acquiring foundational knowledge and applying it to drive impactful solutions. Contributed to improved processes and efficiency.

## SKILLS
